SECRET

27th November, 1944

APPROVED FOR RELEASE
DATE: AUG 2004

1. CHREP 36 (part):

We have today sent out a further 40 cases of Plastic H.R., marked "C. 36/51" to "C. 36/90". Each case contains 20 lbs of Plastic, making a total of 800 lbs. in all.

2. CHREP 32:

We have also despatched today a sample tin under the a/m operation. This consignment will comprise a total of 4000 lbs of Plastic H.R., packed in watertight tins, each containing 18 lbs nett, enclosed in khaki canvas bags.

Please let us have your views on this new packing, which has been adopted with a view to transferring the stores in bad weather at sea.

3. MARKING OF CASES:

We should like to have your views on the present system of marking. All CHREP packages are now being marked with the CHREP number and the serial number of the package - e.g., C. 36/51. It was thought that we could give some indication on each box of the total number of cases in each operation, but this is not now possible as we do not always know in advance the total number which will be sent.

We have been marking the cases on pieces of adhesive tape, in order to enable you to remove such markings in the easiest way if you wished.
